

## Eight Button - Technical Specifications:

### • Remote transmitter information

- |                             |  |
|-----------------------------|--|
| • RF frequency              | 315 MHz, 433.92MHz                                     |
| • Functions                 | 1 - 8  |
| • Environmental conitioning | IP 67, Floats, UV Resistant                            |
| • Code                      | Digital pulse code                                     |
| • Code combinations         | 4.294.967.295  |
| • Modulation type           | Please contact us                                      |
| • Antenna                   | Internal   |
| • Operating temperature     | 0 - 70 degrees celsius                                 |
| • Power supply              | 1 x 3v battery - approximate life, 3 years             |
| • Dimensions                | 71 x 42 x 12mm (without holding clip) 71 x 42 x 18mm   |
| • Operating range           | 150FT - extended range antenna available with receiver |
| • Reciever                  | Programmable to all of our receivers                   |
